

Myself. I have no fears. every man must accomplish his destiny: what
fate holds my body or soul was written in a gabata a thousand years
before the formation of the world.

Antonio: I have no fears myself brother; the carp might if they gave
home as the fair egg - and the wolf carried like the market place
as the spawdy; I have got the Bar Lachi in my bosom the precious
stone to which strikes the needle.

Myself. You mean the longhorn I suppose: Do you believe that a little
stone can preserve you from the carper which occasionally threaten
you wife?

Antonio. How far ~~is it~~ I am fifty years old say you see me standing
before you in life and strength - how could that be unless the Bar
Lachi has power: I have been soldier of contrabando, and
I have been claim of robbery the Bourne; the bullets of the ystria
up of the para canellas have taken about my ears without injury
me for I carry the Bar Lachi; I have twenty times some that
which by Bourne law should have brought me to the ~~execution~~ gallows - yet
my neck has never yet been squeezed by the cold garrote. Brother
stand on the Bar Lachi like the stone of old: were I in the
meat of the gulf of Bombay's withal I think to ~~remain~~ ^{stand} where
I should feel no fear, for in leaving the precious stone ~~is~~
I would say me safe to shore. The Bar Lachi has power
brother.

Myself. I shall not dispute the matter with you, more especially
as I am about to depart from Paeyog - I must specify deep
farewell and we shall see each other no more.

Antonio. Brother, do you know what brings me to shore?

They would laugh if they saw two Latin ~~cars~~ with baggage behind them.

During my stay at Masajay I had but little intercourse with the Spaniards my time being chiefly occupied by the Indians with whom from long intercourse with various sections of their race on different parts of the island I felt myself much more at home than with the silent reserved mind of Spain with whom a foreigner might struggle for half a century without ever half a dozen words attaching to him unless he himself made the first advances in conversation which after all might be regarded with a shew of no intention for among the many capable people proprietors of these people in the strange sea that no foreigner can speak their language or vice versa so that they will hold their tongue they hear him converse with perfect ease for in that case the utmost that they ~~will~~ ^{will} concede is his attachment to ~~the~~ noble pastos palacios y caserios.

Early one morning before sunrise I found myself before the house of Antonio it was a small mean looking abode in a goodly street; the morning was quite early the street however was particularly illumined by a heap of lighted straw going which two or three ~~men~~ ^{men} ~~figures~~ were busily engaged apparently taking an object over the flames - presently the lighted straw opening Antonio made his appearance and calling his wife in the conversation of the light and lamp: the wine have killed their brother, would that were Antonio was then so very as younger brother ~~was~~. Come in brother go we will eat the heart of that boy - I scarcely misgiving his words but following him he led me into a low room in which was a broken or small table full of lighted charcoal - ~~There was a~~ ~~table~~ ~~base~~ ~~it~~ was a rude table of wood with a coarse linen cloth upon which was placed as a large portion part of a sheep which smelted no disagreeable odour. The heart of the ~~caribbe~~ ^{caribbe} y in that. perhaps some Antonio's old brother; we both sat down and ate, Antonio voraciously. Here we had, conclude he more - have you got you to be company? here I went I showed him my my passport. here some he you may want it, I want now my passport in the low Latin. Now for a glass

if repair or then for the road

~~He left the room~~ ~~to make it up himself~~ ~~and~~ ~~for~~ ~~the~~ ~~road~~
He left the room the door of which he locked ~~the~~ ~~door~~, the key ~~is~~ ~~kept~~
a ~~small~~ ~~box~~ in the corner of the passage - he into the street another
which I fetch the Calabrian from the stable. Shows him the
sun had not yet risen and the air was scarcely cold. The men with
however I soon makes me acquainted with objects with tolerable
accuracy; I soon miss the children of the primary sex, and deliver
presently dropping forth eggs the horse by the bridge. The man
follows behind. I look at the horse as though my attention
as well as I could scan it appears the most unclean animal I
had ever beheld. It was of a spectral white short in the body but
with remarkably long legs. I observe that it was certainly white
on the crown as well as on the sides. You are looking at the great king Antonio
of England's grey dog but it is the very best in the Chim del Manero.
I have long had my eye upon it; I sought it for my own use for
the purpose of Egypt - I thought another would and let us leave
the ~~place~~ ~~at~~ ~~once~~ ~~and~~ ~~let~~ ~~us~~ ~~leave~~
the ~~place~~ ~~at~~ ~~once~~ ~~and~~ ~~let~~ ~~us~~ ~~leave~~
The gate is about very opening.

He looks he soon approaches the face in his face. In half an hour
or a quarter of the hour we had left the prison behind us. This you had
appear to be a very good horse said to Antonio; but with respect
that I can make in those.

He is the poorest horse in the Chim del Manero, Antonio says to Antonio, still
quoting me at the stable that there is no one to match him, but he is unclean
means the my joints are stiff especially of a morning; but left him
free become braver, and the Chim del Manero comes upon him as
there is no hope in the world but on horse; I thought that for
for the purpose of Egypt brother.

About noon we arrived at a small village in the neighbourhood of a
large empty mill; there is no other house in this place said

Whom we will therefore go to the presence of the King and request ourselves
make us heard we shew the petition you had down at the house early
for them and so on. There were two ~~persons~~ of some value in
the kitchen smoking a pipe I said something to Antonio in the also language

What is that I hear? say one of the fellows who was disturbed by an immense
part of Montachus which is that I hear it is in fact that you are speaking before
the King and a ~~lot~~ Chaman or national, according to my case you know
this passage and speak before me in that speech, it is not forbidden by the
law of the King in which we get wear as if a passage for a hyppon to enter
the message. Tell you what friends if I hear another word of that come from
your mouth I will catch you some as being you flying over the house
help with the sole of my foot.

You would so might say his companion; The ambition of these hyppon is
no longer to be borne, than I am at Merida or Passajo, I go to the
mercado no there in a corner where the country hyppon talking to each
other in a speech which I understand not. Hyppon gentlemen say to
me of them what will you have for the country? I will have ten dollars
for it. Another national says the hyppon it is the best country in all Spain.
I speak like to our ~~last~~ faces say I that you shall meet national men
the hyppon are jumping upon his back he looks at his face not of all
what they do really who do eat in fact and truly the face of the ^{most honorable} country men
such as I have never seen before - I think I will just visit me and after
looking at it carefully take out the money and buy one - I shall go to my
house says the hyppon go off he says, I shall go to my village says one
I demand the country - Antonio says - but the country would move, I give
him a pocket but I could not get on the better for that, how is this say
to get to opening him, what happens then brother, the message and
the people when he takes down to play me over his hair.

into the party I get up my look about me; there comes the counter stars
at me and there along the whole by long candle ~~stars~~ at me with
long gas - where is the camp who has outgone this ^{sheet} ~~problem~~ & head; he
is gone to Havana Sabon says one - he is gone to his ~~camp~~
among the ~~stars~~ says another I just custom ~~stars~~ over the ~~stars~~
the position of - with the ~~stars~~ before him says a thing - he
a ~~thing~~ to ~~stars~~ ~~stars~~ I wish to ~~stars~~ of the ~~stars~~ to be ~~stars~~
with him - he is a ~~stars~~ ~~stars~~ in my ~~stars~~ among him - at last
the ~~stars~~ after ~~stars~~ ~~stars~~ for him ~~stars~~ after much ~~stars~~
am ~~stars~~ to get ~~stars~~ of ~~stars~~ ~~stars~~ - It is all a ~~stars~~ ~~stars~~
he ~~stars~~ to his ~~stars~~ & the ~~stars~~ share the ~~stars~~ among ~~stars~~
all which ~~stars~~ ~~stars~~ by ~~stars~~ in my ~~stars~~ were the ~~stars~~ ~~stars~~
not ~~stars~~ for ~~stars~~ but the ~~stars~~ of ~~stars~~ have ~~stars~~

will always wind on in this way for years and I hope these chains by the deep man
two of them one but the youngest who is the little who sits by the window
was a Spaniard - so we were about and during one hole when it came
to pass that one in the winter time - our company although they had a
wreck of a cup over of which there are many in the Channel Corchia are
the only vessel with the property of the current affected all our people were engaged
all but myself to my choice whom I have in my room - ~~the vessel~~
~~was not but I found myself on the edge of a barrel in the water~~ I had now no
force among the Corchia and I was gone about the capable meeting, as
I cannot tell I became half ill and in this way I found my way to the
court where I have found with the captain of a ship and returning to his home
of Spain -

As now I am here, I often wish myself back again amongst the Corchia
there the commencing laughing long and long, one the other the two scarce had a
and immediately took up the laugh which they continue so long that I conclude
they were sensible.

How much more than one that we are crossing the houses from which by this
time it is worth the adventure - the glass has long since subsided and only
a few sparks or two was to be distinguished; the room on which was now
nearly in ~~the~~ darkness. The women were not perhaps as still -
singing and began to dance. Both Antonio believe myself at
length to be married.

No longer who comes, my language Caloro says the Gyffes Mother in
an unworldly tone. Piferavos has been here two times

I was about to get from my seat and to attempt to escape from
the house when I felt a heavy bag laid upon my shoulder and in a moment
I heard the voice of Antonio - "Be not afraid his brother we will
have a light soon as this supper - - - -"

The matter was more unusual attention of boys there

live. In his corner propped a leather bottle of excellent wine
by the light of an earthen lamp which was
placed upon the floor near the doorway, to the young person
the the paganist and with only a necklace:

The girl brought to him with some respects the gypsy
bunch and their abundance of ornaments he said:

I have a friend and honey food
Don't you see on it drink
The master came with sword and pistol
My me work, capture him:
I'm not one master of a horse
I'm come across the sea
I'm come the ^{from} ~~about~~ with long halberd
Where does the gypsy live?

He continued playing us organ for a considerable time the two younger
female sang in the meanwhile with marvelous diligence, whilst the
aged mother occasionally snapping her fingers or beat time on the organ
with her stick - at last the organ suddenly gave over the instrument
sounding

I see the person above is away, thought enough tomorrow
more thereof - we will now to the church -

With all my heart say I where we are to sleep?
For the stable says he - in the manger - paper cold the
stable may be we shall be soon enough in the stable.

The remaining days pass at the gypsy house Antonio's departure ^{early} morning on his
mule to return late at night the house was large & mysterious - the only well-lit
part of it with the exception of the stable being the hall where we had supper and
here the gypsy female slept at night on some mat as, matrasas in a corner.

A strange hour is this said to Antonio one morning as he was on the point
of saying his mule and departing as to those on the affairs of gypsies a down
house of strange people - that gypsy grandmother was all the appearance
of a sorcerer -

All the appearance of our king Antonio says if she not really one? the papers
more colorful things and crabbier words than all the words between him
as Calabrian - she has been around the world three times and can make more
crosses, prayers & charms than any one else she once made a king of
Spain and her father me to her side - no shortly after she was to my
some reports from my boy she sometimes would bring fowls & a
mountain and mountains of dunes very one within my net, she knows
many things would the location which ~~there~~ should be place to make
have you been long as, surely with her ring & you appearance to be just
now in her hands.

Agreements with her ring Antonio - did not my own brother marry the Duke
and her daughter, who bore him the child sixteen years ago just before
he was hanged by the Duke?

In the afternoon I was talking with the gypsy mother in the hall - she has
called me about telling fortune about the town eye neighborhood which
was her ^{own} description - Are you moving my tongue about to give
the old woman to me - Are you a No

Myself. Wherefore do you ask, I said she said.
Gypsy Mother: It is high time that the Duke of the Duke

will take you for any that she has a Ho - you can do as well
then take her for home my longon Caloro -

Myself. I am a stranger in this land I mother of the Gypsies and can
know how to provide for myself much less for a family.

Gypsy Mother, she wants money to provide for her my longon Caloro, she
just at any time provide for herself any but so she can take care, they
said and there are few to just them at stealing a pasture, there the
side of the road where they tell me you are going. The woods make
much business, therefore take her Mother for all this forgo she is
patri as it were you have is nothing to be gained - but in the
foster care I would be another matter, she would go and get me
Luchipi and sonuai, to hold you would size about on your back take
you - and when you has got much business, you might return home
to live like a Gypsie and all the words of the Chingel Memoirs should
be given this words to you, what say you my longon Caloro
what say you to my plan?

Myself. You give a promise in mother or at least some people would like
it so, but for I am on you are more of modern class and have no
inclination to help my life in this country.

Gypsy Mother, I am return to your own country my Caloro, the Chabé can
take the pain, and she not so prosper in longon with the rest
of the Caloro - for why not go to the land of the Corcha in
at such case I would accompany you I and my children the
mother of the Chabé.

Myself. Now what should we go in the land of the Corcha, it is
a hard and wild country to believe.

Gypsy Mother. The longon Caloro, why me what we could
get at the land of the Corcha; I almost think that
I am afraid to a wilderness, are there not houses

to show: for I know there are no better ones than in this line and
 after so much, for the sake of the Corcha you must hold out to
 show even if you must there or in your own country, or else
 you are no Caloro - can you not join yourself with the black
 people who live in the suburbs here surely? and say they would
 like to have among them the words from Spain as long as
 you have got a word of eye, but I wish not to give in this time, but
 would say why where both my names are sleeping - take my
 share therefore and go to Maculati to win the prize, my word
 you have got a word of eye we will give a reward to the
 person in Maculati and in that way I will make that my
 share and my word like for some days -
 but when they have taken me will have them and away to the face
 of the Moor my long Caloro.

This a big term's say I - the fellow with of course being the
 part of the picture upon us and we shall all be cut into the
 streets.

is! say the black cake taking her through that - it has ^{more} reason for
 fear in more than ^{any} ~~it~~, we could bring him to the police - we have
 Messer found in his town today today -

No wonder, the government the day before of the day have found
 in London Caloro - found among the business barabara,
 barabara.

Nothing further of my account coming in the history house,
 the next day, Antonio by myself ~~was~~ ^{was} ~~again~~ ^{again} in the riddle, we
 brought up ^{at} ^{the} ^{very} ^{same} ^{time} before the people. The British

 than an immense quantity of the same kind of rocks which
 lay upon the plain - the rain had now ceased but a strong
 wind rose and howled at our backs, throughout the journey
 had a horse and considerable quantity of goods upon the
 back of Antonio - the walk of the horse was slow as it could discern
 no path of the ground which the horse had upon me back

... he was old man of a hundred years - and I once knew him too - but
all the thought we saw was a lie that there was no work no men or women
no horses or mules no stone tools, I have often thought of his words and
the whole occasionally, although he was poor and old.

Myself - How what think you of Tobiagu - of yours of Mungunda?
Antonio - Well I know of Tobiagu and his mother Munga brother is that they are
the gods of the houses and are worshipped by them in the Camps now that
they have died - though they were worshipped by them when alive so much so
that the people believe to be gods and to be worshipped even, there
to get whether they are or not from the people I don't know what money you
have to his country - you certainly tell me the you of the people
Antonio's you cannot tell me - tell that to the people you have
good reasons for coming, wouldn't they you wouldn't be here - some
of your own people of the Longoni perhaps you use - I came not.

It is a woman and at length mounded on a great mound
There it is my necklace said Antonio for it can be no other.
The woman and the jewelry were upon the plain and for some
years were consumed by the grass and by the weeds which improve.
They were not long however in being seen at present at the
distance of about a hundred yards; the other was a bush.
