SPACE ARCHAEOLOGY SONIC TROWELS AND SPACE JUNK

Thursday 19th September, 5:30pm.
St Andrews Parish Centre,
43 Church Terrace, Walkerville.

Just as the early explorers on Earth left behind discarded items, so too have our space programs left a variety of space junk, both in orbit and on the Moon and Mars. As we celebrate the 50th anniversary of the Apollo 11 Moon landing it is timely to trace the impact we have had on the places visited, and what we have lost, discarded or left behind.

The RGSSA warmly welcomes Dr Alice Gorman to present our September lecture. Alice is Senior Lecturer in Archaeology and Space Studies at Flinders University. She will provide an insight into the role that Archaeology can play in the examination and documentation of lunar sites and the valuable information that may be uncovered.

Why not join us for what promises to be an enlightening lecture. A gold coin donation for members and students (\$10 for non-members) to help fund our venue would be appreciated. Attendees are welcome to join us for dinner (at own expense) at a local pub after the lecture.
