ROYAL GEOGRAPHICAL SOCIETY OF SOUTH AUSTRALIA

DON'T LEAVE A TAP DRIPPING AUSTRALIA'S FERAL CAMELS

Thursday 20th August, 5:30pm.
St Andrews Parish Centre,
43 Church Terrace, Walkerville.

If, as they say, a camel is a horse designed by a committee, then in relation to the Australian feral camel, the committee did a darn good job!

Once a trusted pack animal their economic value waned with the coming of road and rail. In the present day hundreds of thousands of wild camels roam the outback causing enormous damage to the environment.

The Royal Geographical Society of South Australia welcomes Pamela Rajkowski OAM to present our August lecture. Pamela has a deep understanding of issues relating to feral camels particularly the effect of climate change and changes in animal distribution. Why not join us for what promises to be an interesting lecture?

Please Note; To stage this lecture the RGSSA must adhere to a COVID-19 management plan. The lecture is open to members only, with significantly less seats than usual due to social distancing requirements. All attendees must be in possession of a ticket. No ticket/no entry. Tickets are available through Eventbrite or via the RGSSA web site. The lecture will be recorded and will be available on-line at a later date.
